

ISHAN KUMAR

[GITHUB](#) | [X](#) | [PORTFOLIO](#) | [EMAIL](#)

SUMMARY

Experienced in building responsive UIs using **React, NEXT.js, TypeScript, Express, RESTful APIs**. Proficient in **MERN and Python** with expertise in **Go, PostgreSQL, Docker, Git, Mongo**.

PROJECTS

Anime Haven (React.js) [Checkout](#)

- Developed a React-based anime browsing platform for anime browsing, featuring dynamic transitions.
- Provided curated resources for new fans, including licensed streaming platforms, subscription services, and Telegram channels.
- Enhanced user engagement with recommendations and simulcast information.

AstraDynamic (Next.js, TypeScript, ShadCN UI, Framer Motion) [Visit](#)

- Created a robust frontend toolkit using Next.js, ShadCN UI, and Framer Motion.
- Developed a modern component library with customizable elements and fluid animations, ensuring responsive and cross-browser compatibility.

SecureBook (Node.js, Express, MongoDB, jwt) [GitHub](#)

- Built a RESTful API for managing a contact database with secure user authentication.
- Utilized JWT for authentication, bcrypt for password hashing to ensure robust security in MongoDB.

TicketFlow (GO lang) [GitHub](#)

- Developed ticket booking CLI application in Go, showcasing package-level variables, modular design, and inter-package communication.

CERTIFICATIONS

-
- **Postgresql** certification from simplilearn .
 - 100xdevs certification for **Full Stack Web Development** Course

SKILLS & EDUCATION

Programming Languages : JS, TypeScript, GO, HTML, CSS(Tailwind) ,Python

Frameworks/Other Skills : React, Next, Node.js, Express, ShadCN UI, MongoDB, PostgreSQL, Docker, Git.
