EDUCATION

B.Tech in Computer Science and Engineering , EIB RGIPT	Expected May 2025
Class XII , Holy Mission School	88.8%
Class X , BRDAV Public School	95.8%

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C, Go lang

Technologies/Frameworks: Node.js, React, Next.js, Express, Flask, FastAPI, GraphQL, PostgreSQL ,MongoDB, Tailwind CSS, LangChain, OpenCV, TensorFlow, Numpy, Pandas, RAG, PyPDF2, Matplotlib

Developer Tools: VS Code, Cursor, GitHub, Linux, Terminal, Postman, OpenAI API, Mistral API, Gemini API, Prisma ORM, Docker, Git, GCP, AWS, Firebase

PERSONAL PROJECTS

RepoMaster   *Dec 2024 - Jan 2025*

- Developed automatic documentation generator using Python and Gemini API, reducing manual documentation time by 80% and automate the creation of essential project documentation and containerization configurations.
- Engineered to analyze GitHub repositories and generate README, Dockerfile, and Docker Compose files.

Market Research AI   *Jan 2025 - Feb 2025*

- Developed AI-driven market research tool using multi-agent system, automating 95% of research process.
- Integrated Gemini and Exa APIs to analyze 1000+ data points for comprehensive GenAI, LLM focused research on Companies, and Final proposal generation summarizing research, use cases, and resources.

RailReserve Pro  *Nov 2023 - Dec 2023*

- Engineered scalable train reservation API using Express.js, Prisma ORM and PostgreSQL handling 10K+ concurrent requests. Implemented JWT-based authentication with 90% security compliance and Bcrypt hashing.
- Created atomic transaction handling for booking management, ensuring 100% data integrity with ACID

DocVision   *Mar 2025*

- Built Python-Streamlit web application leveraging Mistral OCR API with 95% text extraction accuracy.
- Implemented support for both URL inputs and local file uploads ,multiple download ,Export format options.

WORK EXPERIENCE

AI Engineer / Full Stack Developer *Dec 2024 - Jan 2025*
Sambin Technologies *Intern*

- Automated Customer Service and Support via Chatbots,Configured and customized pre-trained conversational model using existing datasets and customer FAQs. Integrated the chatbot into web and mobile interfaces.
- Enhanced Reporting and Business Intelligence using LLMs to convert data insights into human-readable reports via natural language generation and integrated data visualization libraries (e.g., Matplotlib)

Conversational AI Engineer *Feb 2025 - Present*
Hostel Hill *Intern*

- AI-Powered Chatbot for Instant Customer Support and Query Resolution using LLMs for natural language understanding and personalized responses. Provided multilingual support through machine translation.
