

ISHAN KUMAR

[GITHUB](#) | [X](#) | [PORTFOLIO](#) | [EMAIL](#)

SUMMARY

Experienced in backend development using **Node.js, Angular, TypeScript, Express, RESTful APIs**. Proficient in **MERN and Python** with expertise in **Go, PostgreSQL, Docker, Git, Mongo**.

PROJECTS

ScrapeMaster (Node.js, Crawllee) [GitHub](#)

- Built a web scraper using the Crawllee framework to extract data from websites efficiently.
- Utilized PlaywrightCrawler for seamless navigation and data extraction from open-source websites.
- Designed the scraper to gather insights like documentation, statistics, and other relevant data.

NextAuth (Next.js, PostgreSQL) [GitHub](#)

- Developed a backend application with Next.js to manage user data via PostgreSQL using Prisma ORM.
- Implemented user signup and authentication, featuring secure password storage with bcrypt.
- Provided efficient database interaction for fetching and posting user data.

SecureBook (Node.js, Express, MongoDB, jwt) [GitHub](#)

- Built a RESTful API for managing a contact database with secure user authentication.
- Utilized JWT for authentication ,bcrypt for password hashing to ensure robust security in MongoDB.

TicketFlow (Go) [GitHub](#)

- Developed ticket booking CLI application in Go, showcasing package-level variables, modular design, and inter-package communication.

Certifications

-
- Postgresql certification from simplilearn .
 - 100xdevs certification for Full Stack Web Development Course

SKILLS & EDUCATION

Programming Languages : JS, TypeScript, GO, HTML, CSS(Tailwind) , Python

Frameworks/Other Skills : React, Next, Node.js, Express, ShadCN UI, MongoDB, PostgreSQL, Docker, Git.

EIB, Bengaluru -RGIPT

Bachelor of Technology in Computer Science

Bengaluru/Karnataka

Aug. 2025

- Coursework: Operating System(OS), Computer Networks, Data Mining ,Cloud Computing, Web Dev ,DSA
